# Make-up mirror

## Important safety instructions

### READ CAREFULLY AND STORE FOR FUTURE USE.

- This make-up mirror must not be used by persons (including children) with physical or mental impairments or by inexperienced persons, unless properly trained or schooled in the safe use of the make-up mirror, or unless they have been properly supervised by a qualified person who will be responsible for their safety.
- Children must be supervised to ensure that they do not play with the mirror.
- Before connecting the mirror to a power socket, make sure the voltage stated on the label of the appliance corresponds to the voltage in your power socket.
- Only use the mirror for the purposes for which it was designed and in the manner described in this user's manual.
- The mirror is designed for household use only. Do not use it outdoors.
- Use the mirror on an even, stable surface.
- Never submerge the mirror or its USB recharge cable in water or any other liquid and do not wash it under running water.
- Do not place the mirror or use it in the vicinity of a bathtub, wash basin or in such a location where it could fall into water.
- Do not leave the mirror unattended when it is connected to a power socket.
- After you have finished using the mirror or before cleaning it, disconnect it from the power socket.
- Do not expose the mirror to direct sunlight. Reflected sunlight could cause a fire.
- Do not place the power cord near hot places or over sharp objects. Do not place heavy items on the power cord. Position the power cord so that it will not be stepped on or tripped over.
- If you are using the mirror in the bathroom, to ensure supplementary protection it is recommended to install a residual current device (RCD) with a nominal release current not exceeding 30 mA into the electrical circuit.
- Do not connect the mirror to a power socket if the power cord or plug are damaged, if it is damaged or if it has fallen on the floor. Any repair of the make-up mirror or replacement of a damaged power cord may only be carried out by an authorised service centre or another similarly qualified person, as this will prevent causing a dangerous situation.

A

- Before using the make-up mirror please read the user's manual thoroughly even if you are already informed about the use of similar types of products. Only use the make-up mirror in accordance with the instructions provided in this user's manual. Keep this user's manual in a safe place where it can be easily retrieved for future use. In the event that you hand the mirror over to somebody else, make sure to also include this user's manual.
- Carefully unpack the make-up mirror and take care not to throw away any part of the packaging before you find all its parts. We recommend saving the purchase receipt and responsibility statement of the vendor or warranty card for at least the duration of the legal liability for unsatisfactory performance or quality. In the event of transportation, we recommend that you pack the product in the original box from the manufacturer.

### DESCRIPTION

- |   |  |
|---|--|
| <b>A1</b> Double-sided mirror   | <b>A4</b> Base stand                     |
| One side provides a normal reflection, the other side provides a five-fold magnification. | <b>A5</b> Hanging and swivel mirror axle |
| <b>A2</b> All-round edge LED backlight  | <b>A6</b> USB power cable slot           |
| <b>A3</b> Backlight switch  | <b>A7</b> USB power cable                |
| Can be switched on or off also with a wet hand.   | <b>A8</b> Power adapter                  |

### FEATURES

- The make-up mirror is intended for the personal hygiene of women, men and adolescents
- The mirror can swivel by 360° all around, enabling the most suitable viewing angle to be set.
- The double-sided design of the mirror offers one side with a standard reflection without magnification and a second side with a five-fold magnification for immaculate everyday care.
- The mirror is fitted on both sides with a LED backlight along its entire edge, providing low power consumption and a long lifetime. The backlight is turned on and off by pressing a button that can be used even with wet hands.

### USE

- Place the mirror on an even and stable surface that is near to a power socket.
- Connect the power cord to the socket in the base stand and to a power socket.
- To turn on the LED backlight, press button **A3**, and press it again to turn it off. It is recommended to disconnect the mirror from the power socket after every use.

### CLEANING AND MAINTENANCE

#### Attention:

Prior to any cleaning or maintenance, always disconnect the mirror from the power socket.

- To clean the mirror use a dry soft lint-free cloth. In the case of heavy soiling, wipe the mirror with a damp cloth and then polish it using a dry cloth. Do not use any glass cleaners as this would result in damage to the surface of the mirror over time.

#### Attention:

Do not rinse the make-up mirror base stand or its USB power cord under running water or submerge these parts in water or any in other liquid.

### STORAGE

- Store the mirror away from direct sunlight. Reflected sunlight could cause a fire.

### TECHNICAL SPECIFICATIONS

#### Power adapter

Rated voltage range ..... 100–240 V AC  
 Rated frequency.....50/60 Hz

#### Make-up mirror

Dimensions (width × depth × height) ..... 220 × 120 × 360 mm  
 Diameter ..... 18 cm  
 Weight ..... 800 g  
 Light source.....LED  
 Electrical shock protection class.....III  
 Output.....5 V DC, 1 A  
 Rated power input ..... max 5 W

### EXPLANATION OF TECHNICAL TERMINOLOGY

#### Safety class for electrical shock protection:

Class III – Electrical shock protection is provided by double or heavy-duty insulation.

Changes to text and technical parameters are reserved.

### INSTRUCTIONS AND INFORMATION REGARDING THE DISPOSAL OF USED PACKAGING MATERIALS

Disposal of used packaging material at a site designated for waste in your municipality.

### DISPOSAL OF USED ELECTRICAL AND ELECTRONIC EQUIPMENT

This symbol on products or original documents means that used electric or electronic products must not be added to ordinary municipal waste. For proper disposal, renewal and recycling hand over these appliances to determined collection points. Alternatively, in some European Union states or other European countries you may return your appliances to the local retailer when buying an equivalent new appliance.

Correct disposal of this product helps save valuable natural resources and prevents potential negative effects on the environment and human health, which could result from improper waste disposal. Ask your local authorities or collection facility for more details.

In accordance with national regulations penalties may be imposed for the incorrect disposal of this type of waste.

#### For business entities in European Union states

If you want to dispose of electric or electronic appliances, ask your retailer or supplier for the necessary information.

#### Disposal in other countries outside the European Union.

This symbol is valid in the European Union. If you wish to dispose of this product, request the necessary information about the correct disposal method from the local council or from your retailer.

This product meets all the basic requirements of EU directives related to it.
